UTILITIES MATTER

☐

ORDER NO.

SUBJECT:

DOCKET NO. 2008-196-E - Combined Application of South Carolina Electric and Gas Company for a Certificate of Environmental Compatibility and Public Convenience and Necessity and for a Base Load Review Order for the Construction and Operation of a Nuclear Facility in Jenkinsville, South Carolina - Discuss with the Commission the Office of Regulatory Staff's Motion to File and Present Panel Testimony.

COMMISSION ACTION:

Grant the ORS Motion to File and Present Panel Testimony. However, I further move that ORS be required to prefile its panel testimony in a format in which each part of the testimony is attributed to a single witness. In other words, Madame Chairman, a particular witness should be primarily responsible for a specific topic in the testimony, although others may address that topic as well. Certainly, upon cross-examination, more than one ORS witness may be allowed to contribute in answering questions, but I believe that one witness should be primarily responsible for each topic presented, and that witness should be identified in the prefled testimony. Also, the Commission would reserve the right to require the witnesses to testify separately, if during the hearing, it becomes apparent to the Commission that the panel is not an effective way to present the testimony.

PRESIDING: FlemingSESSION: RegularTIME: 2:30 p.m.
